

Plant Sale & Garden Open Afternoon

Come and see the garden in its late spring glory and pick up some plants for your own garden. We'll have a range of herbs, flowers and edible plants.

About This Event

All plants are grown from seeds or cuttings from our existing plants and potted in peat-free compost in either plastic-free or reused pots. We'll also have some plastic-free pots available to purchase too. We will have a selection of lovely herbal teas and cake for sale. Please bring a cup or mug to help us avoid disposable cups. If you are intending to buy plants please bring bags to take them home in. If you've got plastic plant pots you don't need you can bring them to us to be re-used. Closer to the time we will share the variety of plants on sale. No booking is required.
