

A Natural History of Moths with Matthew Gandy

Come along and hear Matthew Gandy introduce some of the cultural and scientific aspects to moths.

About This Event

At this session, you will discover some of the cultural and scientific aspects to moths ranging from themes such as mimicry and literary representations to recent concerns with light pollution and mass invertebrate decline. We will also consider some of the amazing moths to be found in Abney Park and other sites in Hackney.

Matthew is Professor of Geography at the University of Cambridge and an award-winning documentary film maker. His books include *Moth* (Reaktion, 2016) and *Natura urbana: ecological constellations in urban space* (MIT Press, 2022). No booking is required to attend. Meeting place is at the community room next to the cafe at the Stoke Newington High Street entrance.
