

Set Design with Brainfools and Hoxton Hall

Hackney Circle members are invited to take part in this one-off creative set design opportunity at Hoxton Hall.

About This Event

Step into the creative world of set design! Join Hoxton Hall and Brainfools to make three giant 2 metre willow tree lanterns for our Christmas show, Stella's Imaginarium. In this friendly, hands-on workshop led by Emma Lucas and Adam Lawes from Willow Phoenix (Suffolk), you will learn traditional willow-lantern techniques, help shape and decorate the lanterns, and see your creations become part of the live performance. All materials provided, suitable for beginners.

Booking is required. You can book by emailing info@hackneycircle.co.uk

For further information about Stella's Imaginarium, please visit:
