

# Ecology talk for Earth Day talk at Abney Park

In honour of Earth Day, Abney Park Trust is hosting a talk from the team at Hackney Council who are responsible for the ecology of Abney.

## About This Event

The talk will last about an hour including time for Q&A and will be in the Harriet Delph Room at 7:30pm. The global theme of this year's Earth Day is: Our Power, Our Planet. Earth Day calls on communities everywhere to stand up and speak out in support of clean air, clean water, clean energy, protected natural resources and a stable climate. We hope you can join us, to hear why Abney Park, our local nature reserve, is important to Hackney Council and how that translates into practical actions. You can book your ticket by visiting: <https://abneypark.org/upcoming-events/2026/4/23/world-earth-day>. Tickets cost £5.

## Accessibility Information
